GOV. HAMPYON TO BE PRESENT. THURSDAY MORNING, MARCH 7, 1878. COUNTY EXECUTIVE COMMITTEE.

There will be a meeting of the County Democratic Executive Committee at the INTELLIGENCER OFFICE, at Anderson C. H., on Tuesday next, 12th inst., at 11 o'clock a. in., for the purpose of electing a Secretary for the coming two years, and attending to such other business as may come up with reference to the approaching canvass. The names of the Committee will be found in the proceedings of the County Convention. A full meeting is desired.

E. B. MURRAY. County Chairman.

THE MILITARY REVIEW.

Commanders of the several Companies in Anderson County, and such other officers as can conveniently do so, are requested to meet me at Anderson C.-H. on Wednesday the 13th, at 11 o'clock, for the purpose of consultation, and to make such arrangements for the inspection and review of the 19th instant, as may be W. W. HUMPHREYS.

THE SUPPLY BILL.

The committee have completed the supply bill, and it will soon be presented to the Legislature. The general State tax, exclusive of the two mill school tax, is five and one-half mills. In addition to this is the county tax, and poll tax which is limited to persons from twenty-one to sixty years of age. The taxes are payable in go'd and silver coin and national bank notes, in two equal instalments, in May and October. It is left optional to pay the May instalment in May or pay the whole in October with a penalty of six per cent, on the first instalment.

THE SILVER BILL.

The bill for the remonetization of silver, which passed Congress by more than a two-third vote, was returned by the President to the House, in which House the bill originated, with his objections. The House at once proceeded to pay the bill over the objections of the President. Mr. Cox of New York, in speaking of he veto message, said, "It was a fraud by a fraud." The yeas and nays being taken, resulted in yeas 196, nays 73,-which being more than two-thirds of the votes cast, the bill was sent to the Senate. The Senate proceeded at once to its consideration, and passed it over the vete of the President, by a vote of yeas 47, nays 19.

The silver dollar is now a legal tender for all indebtedness, which is not payable in a specific metal or commodity.

THE CUBAN WAR ENDED.

The Cuban insurrection, which was in augurated in 1868, and had for its object the independence of the island, has, after a long and bloody struggle, ended by the surrender of the insurgent forces, induced by concessions made by the Spanish government. The war has resulted in the granting of rights to the Cubans, which they did not before possess, but whether of sufficient importance to compensate them for the ten years' war is doubtful. According to the terms of surrender, Cuba will be applied in its government and ad- bonds will be applied in its government and ad-ministration. Our sympath: have been with the struggling Cubans, but having Mr. Brewn here read extracts from reso-

ministration. Our sympath: have been with the struggling Cubane, but having failed in obtaining their independence, we hope the rights they have secured will attinulate fudustry and add to the prosperity of the island.

PEACE ESTABLISHED IN EUROPE.

The treaty of peace between Emissia and Turkey was algued at San Stefano, on on last Saiurday, the anniversary of the suffanchisement of the sorfs of Russia. The conditions of peace are, the payment by Turkey of one thousand four hundred millions of roubles, with forty millions of posinds sterling in bonds added. Bussia will acquire by way of indemnity considerable territory in Armenia, including Kars and Batoum. The Mahommedan power in Europe is now completely overthrown with me prospect that it will every be re-established. It is not now probable that the peace of Europe will be further disturbed. Austria yields to the inevitable, and however much Eugland may grow! and threaten, she is powerless to resist the results which naturally follow the defeat of the Turks and the decided trimmph of Russia. Peace may now in the factor of the committee? They come in with an admirable report. tion narrows down to this, whether we should sacrifice the bloated bondholders or force our honest people to pay two millions of fraudulent debts? Is it reasonable that we should go on and not sustain the report of the committee? They come in with an admirable report. Is it right that we should not accept this report? Pause and think, gentlemen! There is another point of view in which this should be considered—political—which is one which I do not like to consider, but I must do it. The Democratic party cannot afford to carry such a load as this fraudulent debt. If you place that load on us, men from all parts of the State will rise up and refuse to pay it. The mountaineers, those sturdy sons of toil, with their brawny arms and sunburnt faces, will rise up and refuse to be forced into paying this monstrous, illegal debt, to the you are trying to saddle on them. No, geatlemen, I cannot for a moment believe you will do such an unjust act. Why favor Northern capitalists to the injury of our own beloved and impoverished people?

During the last campaign nearly every low the defeat of the Turks and the decided triumph of Russia. Peace may now be regarded as established in Europe.

The University Bill has passed both Houses of the Legislature, and will doubtless become a law. In the discussion of the lill, Gen. Gary is reported to

have said:

It matters not to me who favors this bill, whether it be Governor Hampton or Governor snybody else. I shall not follow in any such lead. I am a straightout Democrat, too, in this sense. I have been charged with being an opponent of the Administration. I throw back the charge. I do reserve the right, and will exercise it, of advocating that which I think is right, and condemning that which I regard as wrong, matters not whom it may hurt. I have heard that it was customary for a number of members to close themselves with the Governor and find out what he desired to be done, thus violating precedents which had been established of these separate departments of government determining for themselves questions which might come respectively before the General Assembly.

I have heard that it was customary for a number of members to close themselves with the Governor and find out what he desired to be done, thus violating precedents which had been established of these separate departments of government determining to, them selves questions which might come respectively before the General Assembly. At present we want peace and harmony in the Demecratic party, and such attacks as these on the administration are modifies only disconting. Governor IT amption has the unquestionable right to hold and express opinions on the University bill, or any other bill. To despite him of this right would be to make him short the people have selected as their lessler, not to follow bilindly but intelligently, a mere cypher, and deprive the State of the counsel of one whose apparatures of the series of the counsel of the counsel of the counsel of the distinct of the counsel of the distinct of the counsel of the counsel of the distinct of the counsel of the distinct of the counsel of the counsel of the distinct of the counsel of the distinct of the counsel of the county of t

The debate on the Bonded Debt continues without interruption in the House, which will not come to a direct vote for several days.

The Legislature will not adjourn before Friday 15th inst. Speech of Hop. W. C. Brown in the House of Representatives on the Bond Question.

Mr. Brown, of Anderson, obtained the floor and spoke as follows: It is with a degree of embarrassment that I approach this momentous bond question, but I feel that it is a matter in which every member ought to act calmly and dispassionately. It has been said that the Democratic party is solemnly pledged to pay every debt that is outstanding against the State, but I emphatically deny this. I deny that we are bound to

deny this. I deny that we are bound to pay any fraudulent debts. The Green campaign did not bind us to pay these. Coming on down to the convention in August, of which convention I had the hone to be a member, and a member of the committee appointed to draft a platform of principles, let's see what was done. At that convention an executive committee was appointed but the the deal. done. At that convention an executive committee was appointed, but they had no power to bind the people of the State by any pledge they unde. They had no power to go beyond the platform which was adopted by the Democratic convention. It is true the Wr'lace House passed certain resolutions, and great stress has been placed upon them by those who have spoken on the opposite side, but what was the state of the country when these resolutions were passed?

try when these resolutions were passed?
The object uppermost in the minds of all the good people of the State was to defeat Chamberlain and his horde of thieves. We would have been justifiable thieves. We would have been justifiable in making any promises in order to get out of their clutches. I would have voted for anything to defeat Chamberlain. But were these promises binding? Everything was confusion and commotion. Nobody knew what a day would bring forth. At that time in the rays of the morning sun glittering bayonets were shining, upheld by Grant and his minions. Can you tall me that anything we did then cas bind us now? Why, we would have done anything to relieve our beloved State. I stand here to-day pledged to pay all honest debts. The committee, after the most careful and conscientious laboring for nearly six wonths, examining everything that could shrow light on the subject, have made a report showing their conclusions after investigating the whole subject. Now, can we, who have only looked at the subject in a cursory manner, pretend to set the our independent as against their? We

can we, who have only looked at the subject in a cursory manner, pretend to set up our judgment as against theirs? We ought to be bound by their report because they understand the subject much better than we possibly can. No law can pass an act in which fraud enters. Frauds vitiate any contracts. Suppose Chamberlain should have presented fifty millions in bonds they would have to be consoltated, whether issued legally or illegally, if we be guided by those who urge upon us to pay all the debts. Do you think, sir, we should pay those coupons which were stolen from the State and covered and consolidated? These bonds are not legal obligations against the State. The law required that one million of bonds should be issued and they issued two millions. Now, should we be compelled to pay this additional million? These bonds were deposited in vaults here and then shipped to New York. an issue which shall be made up and set down for trial, at the next succeeding term of the Court of Common Pleas for the county in which the person to whom such advances have been made resides, and in which the person who makes such advances shall be the actor.

They were no better than highwaymen. If a man is caught by a band of highwaymen and told to sign a note for a large sum of money on the pain of death if he refuses to do so, do you think when these thieves come to get the money and he refuses to pay it, that they can force high to pay it by law. This is a parallel case and there is no difference whatever. One is just as bad as the other. Are we more interested in these bonds than we are in our own State? Why, sir, I feel that none of us would to do such a thing as this. Dr. J. W. Gurley, Southern Surgical Institute,

33 Whitchall St., Atlanta, Ga.:

Dear Sir—* My doubts have all been removed. Your medicine acted like a charm. You know when I consulted you that I had very little hope of being cured unless by a surgical operation, as the trouble was pronounced cancer of the breast by two leading physicians of Memphis, Tenn., who stated that it would have to be cut out. You will not blame me, therefore, for my incredulity. Your treatment was so different and simple and the results Manyelous. I am free from the shooting pains and the itching and burning sensation that continually worried me so. My complexion has cleared up, I have gained flesh and mentally am quite a different person. Dr. B. H. Mitchell says he never saw such improvement in such a shoot time. If this will be of any use to you, you can publish it. Mrs. Eliza D. Wilcox.

Another Case of Blindness Restored.

I have been blind for five years; have spent hundreds of dollars trying to have my sight restored, and failed until I put myself under treatment of Dr. Gurley, who, in the remarkably short time of eight days, restored my sight; so that I once more enjoy the light and scenery of this world.

Double Complete Fistula in Ano Cured.

I -have been suffering with this terribly malady for over two years, not being able to obtain relief, and having spent much money and being reduced physically so much that I was unable to do any work, (my occupation being that of a farmer,) in fact, I could scarcely walk. I was induced to try Dr. Gurley, of the Southern Surgical Institute, who in a short time cured me. I now weigh more than I have for many years, and am able to go about my farm and attend to business with comfort and freedom from vain. Glennville, Ala.

It gives me pleasure to recommend the appliances used for correcting deformities of the feet by the Southern Scricical Institute, 33 Whitehall St. Atlanta, Ga., as being superior to anything I have ever seen or used. My son has improved more (his case being inverted toes) by their use than any I have ever used.

Nine Xears Hind,

• Dr. Gurley—My daughter is so grateful to you, and says she will ever love you as she does the preacher who converted her. What a happy child she was on the train! She saw so many things and enjoyed herself so much. You don't know how happy we all are, for we were led to believe that nothing could be done for her that would restore her sight. I shall ever remember with gratitude your candor and kindness while under your treatment at the Institute.
